About Us

Legacies are not created accidentally. Each one was embarked on from a single decision, some in partnership with a spouse and others through a mutual venture. The path each legacy takes is entirely different and completely unique. We endeavor to see those journeys through — by embarking on a collaborative, values-based, multidisciplinary journey.

We believe in ...
pursuing what is meaningful over what is expedient
aligning resources with a vision to create new opportunity
stewardship of our family and community...

Joseph lives with his wife Gina and recent son Benjamin in Timnath, Colorado. As animal lovers and foodies, culinary exploration at home in the kitchen is a weekly journey, especially after exploring the Poudre or an afternoon at the dog park. They share time in Florida where many family members reside, as well as a deep love of the beach, ocean, and aquatic wildlife.

To better serve the retirees in Colorado, Joseph obtained the CLTC® (Certification in Long-Term Care) designation which was created in 1999 and focuses on the discipline of extended care planning. It provides professionals with the critical tools necessary to discuss the subject of longevity and its consequences on their client's family and finances.
